CURRENT POSITION	<b>Associate Professor</b> at the University of Campinas, Campinas, São Paulo, Brazil.
EDUCATION	<p><b>University of Campinas</b>, Campinas, São Paulo, Brazil.            Ph.D. in Electrical Engineering, February 2006.            Thesis title: <i>Transmission Systems Expansion Planning Using DC – AC Models and Non-linear Programming Techniques</i>, (in Portuguese).</p> <p><b>Federal University of the Maranhão</b>, São Luís, Maranhão, Brazil.            M.Sc. in Electrical Engineering, February 2002.            Thesis title: <i>Analysis Methodology for a Reactive Power Competitive Market</i>”, (in Portuguese).</p> <p><b>National University of Engineering</b>, Lima, Peru.            Professional Engineer, February 2000.            Thesis title: <i>Proposal for Enhancement of the Peruvian Electrical Concessions Law and its Regulations for Compensation for the Use of Secondary Transmission Systems</i>”, (in Spanish).</p> <p><b>National University of Engineering</b>, Lima, Peru.            B.Sc. (Hons.) in Electrical Engineering, July 1999.</p>
LANGUAGES	Spanish, Portuguese, English.
CURRENT INTERESTS	Operation, planning, and control of energy systems; Developing mathematical tools for decision-making; Exact and approximate optimization techniques.
RECOGNITION	Named as 2 CNPq Researcher in 2011, three years later, in 2014, he was promoted to 1D CNPq Researcher and in 2022 was promoted to 1C CNPq Researcher, thus acknowledging his productivity and ability to conduct high-level research as an independent researcher. <i>CNPq (National Counsel of Technological and Scientific Development) researcher recognition – given to researchers who stand out among their peers, valuing their scientific production according to normative criteria established by CNPq, and specifically, by the CNPq assistance committees.</i>
HONORS	<p><b>2023</b> – One of the 93 researchers UNICAMP in the ranking scientists with the greatest global impact by scientific publisher Elsevier.</p> <p><b>2023</b> – Ranked #4 in Brazil among Best Scientists in the field of Electronics and Electrical Engineering in the 9th edition of Research.com.</p> <p><b>2023</b> – One of the 70 professors UNICAMP in the ranking of the best scientists in the world.</p> <p><b>2023</b> – Indicated for the Teaching Excellence Award in Undergraduate Education in FEEC.</p> <p><b>2021</b> – Indicated for the Teaching Excellence Award in Undergraduate Education in FEEC.</p> <p><b>2020</b> – One of the 74 researchers at the University of Campinas among the most influential in the world, PLOS Biology.</p> <p><b>2020</b> – Co-supervisor of the Master's Dissertation with Honorable Mention in the choice of the Best Master's Dissertation in Operational Research in the Country, period 2019/2020, Brazilian Society of Operational Research (SOBRAPO).</p> <p><b>2020</b> – Concytec Researcher in the Carlos Monge Medrano Level I Category, National Council of Science, Technology and Technological Innovation (Concytec), Peru.</p> <p><b>2019</b> – Best paper in the section 'Smart Grids: Deployment, Projects, Experiences, Interoperability and Standards' at the IEEE PES Congress Innovative Smart Grid Technologies Latin America (ISGT-LA 2019), IEEE Power &amp; Energy Society.</p> <p><b>2019</b> – Indicated for the Teaching Excellence Award in Undergraduate Education in FEEC.</p> <p><b>2017</b> – Awarded January in recognition of the contribution to the quality of the journal made by:</p>

“A mixed-integer linear programming approach for optimal type, size and allocation of distributed generation in radial distribution systems”. Paper published in 2013 and cited in 2014 / 2015 up until June 2016 according to data from Scopus.

**2017** – Awarded the best algorithm in “Test Bed 2 – Optimal Scheduling of Distributed Energy Resources” and one of the three best algorithms in “Test Bed 1 – Stochastic OPF Based Active-Reactive Power Dispatch” both in a competition about “Evaluating the Performance of Modern Heuristic Optimizers on Smart Grid Operation Problems”, IEEE PES Working Group on Modern Heuristic Optimization, Intelligent Systems Subcommittee, Power System Analysis, Computing, and Economic Committee.

**2014** – Awarded one of the five best algorithms in a competition about “Application of Modern Heuristic Optimization Algorithms for Solving Optimal Power Flow Problems”, IEEE PES Working Group on Modern Heuristic Optimization, Intelligent Systems Subcommittee, Power System Analysis, Computing, and Economic Committee.

**2013** – Co-advisor of Ph.D. thesis with honorable mention award CAPES, IV engineering area.

**WORK  
EXPERIENCE**

**Assistant Professor** at the University of Campinas, São Paulo, Brazil (May 2015 – Oct. 2019).

**Assistant Professor**, Paulista State University, São Paulo, Brazil, (Mar. 2010 – Apr. 2015).

**Researcher Associate and Visiting Professor**, Ryerson University, Toronto, Canada, (Feb. 2019 – Jul. 2019).

**Researcher Associate and Visiting Professor**, University of Campinas, São Paulo, Brazil, (Sep. 2008 – Feb. 2010).

**Researcher Associate and Visiting Professor**, Technical University of Catalonia, Barcelona, Spain, (Jun. 2007 – Aug. 2008).

**Researcher Associate**, University of Campinas, São Paulo, Brazil, (Mar. 2006 – May 2007).

**Electrical Engineering Analyst**, ElectroInter SRL, Lima, Peru, (Oct. 1999 – Feb. 2000).

**Electrical Engineering Analyst**, Koc Ingenieros EIRL, Lima, Peru, (Aug. 1998 – Sep. 1999).

**Teaching Assistant**, National University of Engineering, Lima, Peru, (Aug. 1997 – Feb. 1999), Course: PSPICE for WINDOWS.

**TEACHING  
EXPERIENCE**

**Energy Conversion Principles**, Undergraduate.

**Electrical Engineering Laboratory**, Undergraduate.

**Operations Research**, Undergraduate.

**Energy Conversion Laboratory**, Undergraduate.

**Circuit Theory and Electrotechnical**, Undergraduate.

**Electrotechnical**, Undergraduate.

**Electrical Machines Laboratory**, Undergraduate.

**Electrical Machines**, Undergraduate.

**Applied Mathematics for Electrical Engineering**, Undergraduate.

**Planning and Operation of Electrical Energy System**, Undergraduate.

**Transmission Network Expansion Planning**, Graduate.

**Optimization Applied to Electric Power Systems Expansion**, Graduate.

**Optimization Applied to Electric Distribution Systems**, Graduate.

**Interior Point Method for Electric Power Systems Optimization**, Graduate.

**Power System Analysis**, Graduate.

**Optimal Power Flow**, Graduate.

**Optimization Using Interior Point Method**, Graduate.

**Integer Programming**, Graduate.

*Some disciplines at the graduate level are unpublished, and he aims to present the research conducted, contributing to the creation, consolidation of knowledge, and competence in strategic issues within the areas of teaching and research.*

**ADMINISTRATIVE  
POSITIONS**

**Director of Graduate Program in Electrical Engineering**, University of Campinas, São Paulo, Brazil (May 2021 – Current).

**Member of the Scientific Council of CEPETRO (Center for Petroleum Studies)**, University of Campinas, São Paulo, Brazil (Jan. 2020 – Nov. 2023).

**Vice Director of Graduate Program in Electrical Engineering**, University of Campinas, São Paulo, Brazil (May 2019 – Apr. 2021).

**Member of the Graduate Program Board of Electrical Engineering**, University of Campinas, São Paulo, Brazil (Oct. 2019 – Apr. 2021).

**Member of the Scientific Council of NIPE (Interdisciplinary Center for Energy Planning)**, University of Campinas, São Paulo, Brazil (Feb. 2017 – Aug. 2019).

**Member of the Department Board of Electrical Engineering**, Paulista State University, São Paulo, Brazil (Oct 2011 – May 2015).

**Member of the Graduate Program Board of Electrical Engineering**, Paulista State University, São Paulo, Brazil (Jun. 2013 – May 2015).

**10 RESEARCH PROJECTS (AS PRINCIPAL INVESTIGATOR)**

**1C CNPq Researcher**, “Optimization of Microgrid Planning and Operation (in Portuguese)”, Campinas, Brazil, 2022-2026.

**Paulista Company of Power and Light (CPFL)**, “CS3060 - Electromobility and Distributed Energy Resources: Platform for Smart Urban Environments and Enabling Business Models (in Portuguese)”, Campinas, Brazil, 2020-2023.

**FAPESP Research Support Grant**, “Mathematical Models and Moderns Solution Techniques for the Planning of the Expansion and Operation of Electrical Energy Systems (in Portuguese)”, Campinas, Brazil, 2018-2020.

**1D CNPq Researcher**, “Branch Flow Models for the Planning and Operation of Electric Power Systems (in Portuguese)”, Campinas, Brazil, 2018-2022.

**FAPESP Research Support Grant**, “Optimization Applied to Electric Distribution Systems (in Portuguese)”, Campinas, Brazil, 2015-2017.

**1D CNPq Researcher**, “Expansion Planning and Operation of Power Distribution Systems (in Portuguese)”, Ilha Solteira, Brazil, 2014-2018.

**CNPq Research Grant (Edital Universal)**, “Mixed-Integer Linear Programming Models for the Problem of Distribution System Planning (in Portuguese)”, Ilha Solteira, Brazil, 2013-2015.

**2 CNPq Researcher**, “Transmission Network Expansion Planning (in Portuguese)”, Ilha Solteira, Brazil, 2011-2014.

**FEPIA Research Support Grant**, “Integrated Planning of the Power Distribution System Expansion (in Portuguese)”, Ilha Solteira, Brazil, 2010-2011.

**FAPESP Research Support Grant (First Projects)**, “Metaheuristics for the Transmission Network Expansion Planning Using the AC Model (in Portuguese)”, Campinas, Brazil, 2008-2009.

**14 RESEARCH PROJECTS (AS COLLABORATOR)**

**FAPESP Research Support Grant**, “CPTEn - São Paulo Center for Energy Transition Studies (in Portuguese)”, Campinas, Brazil, 2022-2026.

**ENGIE Brazil Energy**, “Methodologies for the Identification of Operational Restrictions in Systems with High Penetration of Variable Renewable Energy Sources (in Portuguese)”, Campinas, Brazil, 2021-2023.

**Paulista Company of Power and Light (CPFL)**, “PA3058 - MERGE: Microgrids for Efficient, Reliable and Greener Energy (in Portuguese)”, Campinas, Brazil, 2019-2024.

**FAPESP Research Support Grant**, “Optimization of Planning and Operation of Electric Power Transmission and Distribution Systems (in Portuguese)”, Campinas, Brazil, 2017-2022.

**Paulista Company of Power and Light (CPFL)**, “PA3018 - Technical and Commercial Insertion for Implementation, Development and Analysis of Applications of Energy Storage Technologies in the Operation of Distribution Networks of CPFL (in Portuguese)”, Campinas, Brazil, 2017-2020.

**Paulista Company of Power and Light (CPFL)**, “PA3010 – System to Automatic Network Reconfiguration and Optimal Allocation of Controlled Switches (in Portuguese)”, Campinas, Brazil, 2015-2018.

**Paulista Company of Power and Light (CPFL)**, “PA0060 - Electrical Mobility - Technical and Commercial Insertion of Electric Vehicles in Business Fleets of the Campinas Metropolitan Region (in Portuguese)”, Campinas, Brazil, 2015-2018.

**University of Campinas and Princeton University**, “SMART-SEN – A Simulation Model of the National Power System with Renewable Generation: Operational Impacts, Regulatory and Costs (in Portuguese)”, Campinas, Brazil, 2015-2017.

**Energy Company of Minas Gerais (CEMIG)**, “L2 – Development of a Management System for the Electric Distribution Systems, Through Monitoring, Diagnostics and Reconfiguration Within the Platform and Concepts of Smart Grid (in Portuguese)”, Campinas, Brazil, 2012-2014.

**Light Service of Electricity S.A (LIGHT)**, “D423 – Development of a Model of Smart Grid using Distribution Network Automation, Infrastructure of Measurement and Consumer Participation (in Portuguese)”, Campinas, Brazil, 2012-2013.

**Spanish Ministry of Science and Innovation**, “Short- and Medium-Term Multimarket Optimal Electricity Generation Planning with Risk and Environmental Constraints”, Barcelona, Spain, 2009-2013.

**Spanish Ministry of Science and Innovation**, “Short and Long-Term Electricity Generation Planning in a Liberalized Market Including Bilateral Contracts”, Barcelona, Spain, 2005-2008.
